Feature story

The *Innovate(R)* is here!

Welcome to the inaugural issue of *Innovate(R)*: TEDCO ...redefining innovation, one company at a time.

True to TEDCO's mission of providing an unparalleled level of support to entrepreneurs, *Innovate(R)* will bring a progressive Feature Story, and will highlight a Cool Technology from one of TEDCO's 200+ Portfolio Companies monthly.

Unique from other newsletters, *Innovate(R)* will provide access to the wealth of expertise from TEDCO's staff, and is the sole source for a complete picture of the groundbreaking technologies supported by its various funding programs and initiatives.

With over twelve years of experience and recognized as a national model for technology transfer, funding of seed/early-stage companies and entrepreneurial business assistance, TEDCO thought it was time to bring forth the secret weapons behind its success -- its Portfolio Companies' technologies and TEDCO's collective staff knowledge.

Each issue will also have a listing of upcoming events, media clips, and quick notes with items of interest to our readers.
